WELCOME MESSAGE

Dear colleagues and friends,

On behalf of the organizing committee, I am pleased to invite you to the 6th Asian Single Port VATS Symposium (ASPVS) which will be in Lung Center of the Philippines, Quezon City, the Philippines on March 23 and 24, 2018.

Interestingly, the theme of next year's symposium is "The Past, Present and Future of Single Port VATS --- Withstanding the Test of Time." The field of minimally invasive thoracic surgery has expanded by leaps and bounds during the last few years and the very specialized discipline of single port VATS even more so. It is time to ask the difficult questions in single port VATS, that of training, credentialing and incorporation into a thoracic surgical program and a database as a tool for further research.

The Scientific Committee has invited respected single port VAT surgeons to update us on advances in single port VATS, present local experience in Asia and emphasize video-based education of technical details. Furthermore, a live surgery session will be held at the Lung Center of the Philippines, the only tertiary hospital for chest diseases in the Philippines. Two parallel sessions, one for anesthesiologists and another for operating room nurses, will also be held, the first time it will be done for the ASPVS. There will also be video presentations and preparations are underway to publish the proceedings of the symposium in the Journal of Visualized Surgery (JOVS).

The Organizing Committee is confident that the 6th ASPVS will further cooperation among thoracic surgeons not only in Asian countries but elsewhere in the thoracic surgical world.

With the promise of traditional Filipino hospitality, I am anticipating your attendance in the 6th ASPVS.

Mabuhay,

FEDERICO C. SANCHEZ, M.D.

Honorary Chair of the Organizing Committee, 6th ASPVS

Chairman, Philippine Association of Minimally Invasive Thoracic Surgeons, Inc.

WELCOME MESSAGE

Dear Fellow Thoracic Surgeons,

The 6th Asian Single Port VATS Symposium (ASPVS) will be held at the Enrique M. Garcia Auditorium, Lung Center of the Philippines, Quezon City, Philippines on 23 to 24 March 2018. It is hosted by the Philippine Association of Minimally Invasive Surgeons (PAMITS).

We have prepared a full day of didactics featuring the world's foremost authorities on Single Port VATS. Plenary speaker is PROF. GAETANO ROCCO, Director of Thoracic-Pulmonary Department, National Cancer Institute, Pascale Foundation Naples, Italy. DR. DIEGO GONZALEZ-RIVAS who is the globetrotting advocate of Single

Port VATS will share with us the current state and future direction of the technique. DR. CALVIN NG and Dr. ALAN SIHOE who started the ASPVS will deliver lectures during the meeting.

Symposium speakers are:

- ❑ Dr. Jang Ming Lee (Taiwan)
- ❑ Dr. John KT Tam (Singapore)
- ❑ Dr. Kyoji Hirai (Japan)
- ❑ Dr. Takashi Suda (Japan)
- ❑ Dr. Hyun Koo Kim (Korea)
- ❑ Dr. Juwei Mu (China)
- ❑ Dr. Yu Ming Zhu (China)

We will have live VATS cases on 24 March which will be beamed to the venue.

For meeting details and registration for the 6th Asian Single Port VATS Symposium 2018 in Manila, please go to <http://pamits.org/6th-asian-single-port-vats-symposium/>

We look forward to seeing you in March!

Mabuhay,

ANTONIO B. RAMOS, M.D.
Symposium Director, 6th ASPVS

WELCOME MESSAGE

Dear colleagues and friends,

The Asian Single Port VATS Symposium (ASPVS) was conceptualized by Professor Calvin Ng and other colleagues in 2013 with the first symposium held at the Prince of Wales Hospital in Hong Kong. Since then, the symposium has persisted and in the words of Professor Gaetano Rocco --- "... it doesn't actually matter today who devised uniportal VATS---what really matters today is for the technique to stand the test of time."

This year, the 6th ASPVS promises to be a great opportunity for learning through didactics focusing on the historical highlights and the expanded indications of single port VATS; it will also try to present the possibilities of what the future holds for this very specialized aspect of VATS. Thus, the theme --- The Past, Present and Future of Single Port VATS - Withstanding the Test of Time.

The Symposium will also provide opportunities for interacting with notable single port thoracic surgeons from Europe and Asia. It will also serve as the stimulus for further cooperation among thoracic surgeons in Asia where single port VATS has seen the steepest rise. Furthermore, it will be the occasion to ask the difficult questions in single port VATS, that of training, credentialing and incorporation into a thoracic surgical program and a database as a tool for further research.

A live surgery session will be held at the Lung Center of the Philippines, the only tertiary hospital for chest diseases in the Philippines. Two parallel sessions, one for anesthesiologists and another for operating room nurses, will also be held, the first time it will be done in the ASPVS. There will also be video presentations and the proceedings of the symposium will be published in a special issue of the Journal of Visualized Surgery.

With the promise of traditional Filipino hospitality, we are anticipating your attendance in the 6th ASPVS and we look forward to welcoming you in Manila.

Mabuhay!

JOSE LUIS J. DANGUILAN, M.D.

Chairman, Scientific Committee
6th ASPVS

MALL & NEARBY DINING

AYALA MALLS VERTIS NORTH

UNRIVALED SHOPPING, DINING DESTINATION AT AYALA MALLS VERTIS NORTH

Ayala Malls Vertis North brings a new shopping and dining hotspot to Quezon City.

The mall will house over 200 brands and establishments covering a variety of options for residents and office workers with different tastes and lifestyles.

Giving the mall its unique charm is the central garden traversing the entire area between the four retail clusters. Ayala Malls Vertis North also showcases a one-of-a-kind movie viewing experience, featuring the first and largest theater screen in the Philippines. The 400-seater state-of-the-art cinema with a balcony containing 24 recliner seats can also be used for an exclusive group screening.

AYALA MALLS TRINOMA

Strategically located at the heart of Quezon City, TriNoma brings to Northern Metro Manila the best in shopping, dining and entertainment that people from this side of the metro has long sought for. Being at the center of the action, it serves as a rejuvenating respite offering a dynamic mix of old favorites and new flagship stores set against a backdrop of beautiful landscaping and interesting water features. With its complete assortment of retail offerings, landscaped gardens, a bustling cinema and a lively Activity Center, TriNoma is truly a colorful addition to the distinctive hue of Northern Manila.

Mall Hours: Monday to Thursday / 10:00 am - 9:00 pm
Friday to Sunday / 10:00 am - 10:00 pm
Hotline: (02) 901-3000

SM NORTH EDSA

SM City North EDSA is the first SM Supermall operated by SM Prime Holdings, which is the largest retail and mall operator in the Philippines. With a gross floor area of 424,691 square meters, SM City North EDSA is one of the largest in the Philippines.

It is located at the intersection of North Avenue and Epifanio de los Santos Avenue (EDSA) in Quezon City, approximately a kilometer west of Quezon City Hall and 10 kilometres north of Makati City.

It features the SM Store, its major anchor, an SM Supermarket, a Hypermarket, a Foodcourt, a Skydome which is an Amphitheater for events with more than 1,200 seats, a 12-cinema complex, and much more! It offers over 3,700 parking slots and
